FERMAX

REF. 7450 DUOX PLUS SKYLINE DISPLAY W

The Duox Plus display module allows the search and display of the list of neighbours (electronic directory) by means of the navigation buttons (arrow keys), as well as informing about the communication status.

The call to apartments can be made in two ways:

- by entering the corresponding code assigned to the property + the ",bell", key.

- by searching in the electronic directory the user's name (navigation buttons) and once found by pressing the ",bell", key.

The navigation buttons also allow you to move through the programming menu.

SKYLINE panel

The SKYLINE electronic and video door entry panel is a robust and elegant panel, which stands out for its durability and beauty, resistance and reliability.

SKYLINE is Fermax's line of continuous profile, modular composition audio and video door entry panels. The line is made up of 8 frames of different sizes where the different modules can be easily fitted together: pushbuttons, card slot, camera, amplifier, access control, etc. The frames allow a certain number of modules to be coupled together. There are two sizes of modules: V and W. W modules are twice the size of V modules.

Modules sizes.

- V module: 105.2x47.5 mm (width-height).
- W module: 105.2x95 mm (width-height).
