Features and Benefits

Quality & Reliability

3-Year standard & 5-Year extended warranty.

High Temp

High-temperature to withstand 60°C

- at full load
- for 100% duty

High Density Power

Outlets designed for high density and compact form factor

Hot-Swappable and Upgradable

Hot-swappable Controller with large OLED display

Hardened Security

Enhanced security w/SNMPv3 certificate-based advanced asymmetric encryption, validated and hardened with multiple security scanning tools

1G Redundant Network Access

Networking speed (1G) with Redundant Network Access (RNA) for allowing separate colo/tenant network connectivity

Real-Time Monitor

Real-time monitoring of metered and measured data

Environmental Plug and Play Sensors

Plug-n-play environment and access security digital accessories

Multi-Device WebGUI

Enhanced user-experience w/BYOD WebGUI

Multi-Color

Colored PDU and power cords
