Batteries, Chargers

Series: BL1426

Network Type: [%NetworkTypeFR%]
Network Type: [%NetworkTypeFR%]

Li-Ion battery 18,0V 5,0Ah. Battery assembled with high energy cells to reduce the number of cells, pack dimension and overall weight. Built in shock absorbers for jobsite conditions. Battery fitted with a memory chip that communicates the usage history with the charger. Li-Ion technology without memory effect. Battery fitted with a cooling circuit for ultra-fast charge (Full charge 45 min using CLM1890-HC charger).
