Smart [PRO]e

SMART[PRO]e 4M is an high power LED floodlight for outdoor and indoor use, ideal for illuminating mediumsized areas and sports facilities. It can be installed on walls, ceilings or the ground thanks to its galvanised steel bracket, painted with polyester powder with trivalent passivation and equipped with an adjustable goniometric scale.

EN AB 46100 die-cast aluminium housing with integrated passive heat sink and polyester powder-coated frame with trivalent passivation. COB LED technology for high efficacy.

Reflector made of metallised PC HT or anodised and polished aluminium. 4mm thick toughened front glass, silkscreen printed for symmetrical versions or with anti-reflective nanocoating for asymmetrical versions. Antiageing silicone gaskets and A2 stainless steel external screws. Plastic venting and anti-condensation device. Electrical connection via H07RN-F cable. Insulation Class 1.

Power supply unit and IP68 connector kit supplied separately. Available with five different types of optics, three types of Correlated Colour Temperature (3000K / 4000K / 5700K) and two different types of Colour Rendering Index (CRI>70, CRI>80).

Designed to withstand overvoltage up to 6KV (differential mode) and 10KV (common mode), temperature variations from -30°C to +50°C, water and dust penetration up to IP66, and impact up to IK08.
