Description courte CR-P230AC2G Pluggable interface relay 2c/o,A1-A2=230VAC, 250V/8A gold contacts

Description longue

The CR-P230AC2G pluggable interface relay is suitable for direct mounting on a printed circuit board or use in conjunction with ABB's sockets. This relay operates with a 230 V AC rated control supply voltage and has a 2 c/o (SPDT) output with gold plated contacts rated at 250 V / 8 A. The gold plating ensures contact reliability for low load applications, enabling the possibility of switching multiple circuits with a single input signal. Coupled with a socket, the compact size of this relay offers possibilities to save space within a control panel. Furthermore, with an IP degree of 67, this relay offers complete protection against ingress of dust and airborne particles & protection against water and liquids, up to and including immersion in up to one meter of water. Standard sockets, logical sockets, pluggable function modules, holder and marker are available as accessories.
