

A complete system for the connection and distribution of LAN networks in the residential and tertiary sector. The range includes solutions for optical fibre, wall cabinets, floor-standing cabinets and products for copper wiring.

The Data Center cabinets come with a wide choice of configurations and various depths (up to 1000mm) to meet every application need.

Made of top quality materials (static full-load capacity up to 1000kg), these products guarantee easy wiring (thanks to the notable internal space) and can be completely customised with removable and reversible front doors.
