Detailed technical data

Technical specifications

Connection type	Screw-type terminals
Note	Protective coating for more challenging ambient conditions (e.g., resistance to sulfur).
Description	System plug: Voltage supply of the Flexi Soft system, storage of system configuration (including EFI-compatible devices), and automated configuration of connected EFI-compatible safety sensors (automated configuration recovery). With protective coating for more challenging ambient conditions (e.g., resistance to sulfur).
Specialty	For FX3-CPU3 with protective coating

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is "Sensor Intelligence."
