

Vista Multipost Collar

Adjustable collar with extra support

The Vista® Multipost Collar is a fully adjustable collar with pivoting occipital panels.

Features Aspen's proven cotton-lined pads designed to enhance skin care by reducing patient contact points in the occipital area.

This brace is part of the Aspen MP brand!

With **25 years** of research driven design, Aspen is committed to providing patients with effective solutions to their unique spinal conditions.

Pivoting Occipital Panels

Padded panels pivot bilaterally and self-adjust to cradle most head shapes for increased support and to help maximize patient comfort. Reduced patient contact on occipital midline helps limit pressure points and heat buildup in areas prone to skin break down.

One Size Adjustable

Patented sizing system offers 6 height adjustment settings.

Promotes Effective Skin Care

Cotton-lined Aspen pads wick moisture from patient's skin while clickable polyurethane foam helps ensure optimal pressure distribution.
