

Aspen Cervical Collar

For comfortable support & motion restriction

The Aspen Cervical Collar was designed to optimize support and comfort:

two key components to better patient outcomes. The collar's structure is engineered to provide substantial motion restriction without producing painful pressure points that can lead to skin breakdown. All of the collar's contact surfaces are cushioned with hypoallergenic, breathable foam padding for ultimate comfort.

This brace is part of the Aspen MP brand!

With **25 years** of research driven design, Aspen is committed to providing patients with effective solutions to their unique spinal conditions.

Minimizing Skin Breakdown

Patented FlexTabs™ offer motion restriction while dispersing pressure to help eliminate skin breakdown.

Occipital Support Strap

Adjusts to the patient's occiput, helping to reduce localized pressure.

Cotton lining
Foam padding

Gentle On Skin

The pads are made of breathable, open cell foam with a soft, hypoallergenic cotton lining which aids in keeping the skin clean, cool and comfortable.
