

Lumbar Support & Stabilization Orthosis

The Aspen Elite Pro+ offers a unique support system that incorporates flexion or extension elements for maximum stability. This elegant design features Aspen's innovative UltraKnit™ technology and patented independent compression system that allows for easy adjustment and tensioning. The Aspen Elite Pro+ also provides increased lateral coverage and anterior support.

This brace is part of the Aspen MP brand!

With **25 years** of research driven design, Aspen is committed to providing patients with effective solutions to their unique spinal conditions.

Simple, Elegant Design

The Aspen Elite Pro+ is comfortable for extended wear and with the low profile design, it can easily be worn under clothing.

Flexion & Extension

Force is applied to the upper and lower portion of the back panel, as well as the anterior panel. This applied force promotes pelvic tilt and offloading.

Patented Independent Compression System

Aspen's patented 4:1 tightening mechanism allows the patient to independently adjust the top and bottom to provide localized compression where it is needed.
