

Summit™ 637 LSO

Inelastic lower spine brace

The Summit™ 637 LSO provides **additional lateral support** while delivering targeted compression, motion restriction, and maximal comfort. This brace is available in a one-size adjustable and in the original sized versions.

This brace is part of the Aspen MP brand!

With **25 years** of research driven design, Aspen is committed to providing patients with effective solutions to their unique spinal conditions.

Rigid Side Panels

Provides increased lateral control for patients in need of additional support.

Reliable Structural Integrity

Tri band technology system and integrated vertical stays provide stability and maintain structural integrity to help ensure effective compression and flexibility.

Integrated Anterior Panels

Anterior panels at each end of the brace overlap to provide added midline support. Featuring Aspen's innovative FlexTabs™, these panels disperse pressure and naturally conform to each patient's anatomy to help increase comfort.
