

# Aspen Lumbar Support

## Inelastic brace for low back pain

The Aspen Lumbar Support can help ease low back pain caused by acute flare-ups, spasms or fatigue muscles. This inelastic brace is a low cost, medical grade treatment option that features Aspen's patented 4:1 tightening system for enhanced support.

### This brace is part of the Aspen MP brand!

With **25 years** of research driven design, Aspen is committed to providing patients with effective solutions to their unique spinal conditions.

#### Integrated Anterior Panels

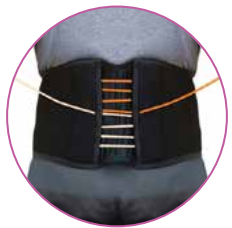

Anterior panels overlap to provide enhanced midline support.

#### Reliable Structural Integrity

Integrated vertical stays provide structural integrity while allowing for flexibility where needed.

#### Easy to Locate Pull Tabs

These ergonomic pull tabs are designed to lay flat but are easy to find by feel. Bonded and stitched materials ensure their strength and durability.

#### Independent Compression

Aspen's patented 4:1 tightening mechanism allows the patient to independently adjust the top and bottom of the brace to provide localized compression where needed.
