

Horizon™ 637 LSO

For trunk stability & targeted compression

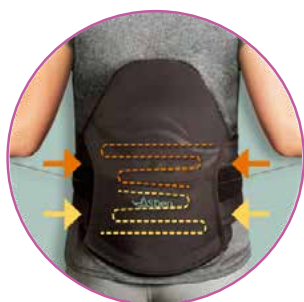

The Horizon™ 637 LSO provides **trunk stability** and **targeted compression** designed to support fatigued muscles causing secondary back pain resulting from surgery or injury.

Moveable, rigid side panels provide lateral support and a comfortable environment for healing.

One-size adjustable, Horizon braces comfortably fit waist sizes ranging from 61 - 127 cm, and up to 178 cm with the extension panels.

This brace is part of the Aspen MP brand!

With **25 years** of research driven design, committed to providing patients with effective solutions to their unique spinal conditions.

Patented Independent Compression System

Aspen's patented 4:1 tightening mechanism allows the patient to independently adjust the top and bottom to provide localized compression where it is needed.

Moveable Rigid Side Panels

Provides increased lateral control for patients in need of additional support. Can be moved where needed or removed if additional lateral support is no longer required as the patient recovery progresses.

Reliable Structural Integrity

Tri band technology system and integrated vertical stays provide stability and maintain structural integrity to help ensure effective compression and flexibility.

Ordering Information

Reference	Product	Waist circumference
993730	Horizon™ 637 LSO	61 - 127 cm
993745	Extension panel	up to 178 cm
