

Inelastic lower spine bracing

The Elite TLSO provides clinicians with a **light weight, low profile** option to treat patients with symptoms related to **osteoporosis**.

The moldable, adjustable, rigid posterior strut combined with an inelastic knitted belt helps to address **kyphosis** which could lead to better balance and more daily activities.

This brace is part of the Aspen MP brand!

With **25 years** of research driven design, Aspen is committed to providing patients with effective solutions to their unique spinal conditions.
