

# Vulkan™ Knee Supports

## Vulkan Classic Neoprene Braces

When you walk your knees endure a force equivalent to around three times your body weight. The more active you are, the more pressure you exert on your knee, making it vulnerable to injury. The knee is one of the most commonly injured parts of the body. Frequent causes of injuries are damage to ligaments, muscular strains, cartilage damage and tendonitis.

### AEROTHERM® TECHNOLOGY

Designed to provide the therapeutic benefits of heat retention provided by neoprene, while promoting air flow.

- 1. Protective Top Layer**  
Tough nylon fabric is Mauser stitched along key stress points
- 2. Neoprene Core**  
Closed cell neoprene core insulates and retains body heat
- 3. Aerotherm® Lining**  
Allows air circulation, drawing perspiration away from skin

#### Knee Support 3011 & 3029

Ideal for minor tendon and ligament injuries, sprains and twists. Available in 3 mm thick neoprene for flexible support and 5 mm for firmer support.

**Sizes: XS to XL**

#### Open Knee Support 3041

Open knee design with a stitched in buttress, which gives extra support and helps restrict movement of the patella.

**Sizes: XS to XL**

#### Wrap-Around Knee Support 3043

The front opening makes application easier for painful knee injuries. Spiral stays offer stability and adjustable tension straps ensure support and compression.

**Sizes: S/M and L/XL**

#### Stabilised Knee Support 3072

The Stabilised Knee support features spiral stays and an adjustable compression strap to provide additional support and stability around the knee joint.

**Sizes: S to XL**

#### Hinged Knee Support 3071

Includes removable hinges to control knee instability. The open knee design and padded buttress provide support around the patella with adjustable tension straps.

**Sizes: S to XL**

Size	Knee Circumference
XS	26 - 30 cm
S	30 - 35 cm
M	35 - 40 cm
L	40 - 45 cm
XL	45 - 50 cm

**Size:** measure circumference at the mid-patella.
