

Vulkan™ Shoulder Supports

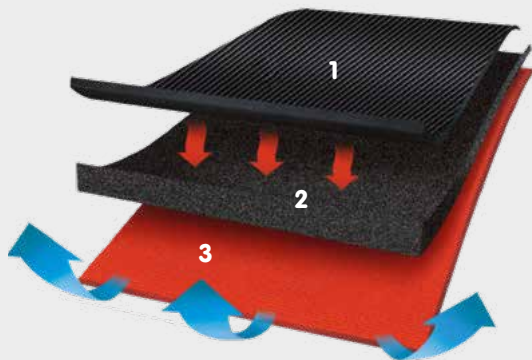

Vulkan Classic Neoprene Braces

Most problems in the shoulder involve the muscles, ligaments, and tendons. People who have demanding training programs are particularly vulnerable to shoulder problems, which can develop slowly through repetitive, intensive routines.

AEROTHERM® TECHNOLOGY

Designed to provide the therapeutic benefits of heat retention provided by neoprene, while promoting air flow.

- 1. Protective Top Layer**
Tough nylon fabric is Mauser stitched along key stress points
- 2. Neoprene Core**
Closed cell neoprene core insulates and retains body heat
- 3. Aerotherm® Lining**
Allows air circulation, drawing perspiration away from skin

Full Shoulder Support 3021

Provides maximum support around the shoulders and upper torso, minimising the risk of strain to the rotator cuff muscles. Ideal for alleviating bursitis and tendonitis.

Reference	Size
006828-S	80 - 90 cm
006828-M	90 - 100 cm
006828-L	100 - 110 cm
006828-XL	110 - 120 cm

Half Shoulder Support 3018 & 3019

Provides protection and support around the shoulder joint. Ideal for use following an injury or returning to physical activity.

Reference Left 3018	Reference Right 3019	Size
006831-S	006832-S	80 - 90 cm
006831-M	006832-M	90 - 100 cm
006831-L	006832-L	100 - 110 cm
006831-XL	006832-XL	110 - 120 cm

Shoulder Strap Support 3092

Provides compression, support and warmth to the shoulder joint complex without restricting movement. Suitable for use on the left or right shoulder.

Reference	Size
006837-S	80 - 90 cm
006837-M	90 - 100 cm
006837-L	100 - 110 cm

Size: measure chest circumference.
