

# Vulkan™ Ankle Supports

## Vulkan Classic Neoprene Braces

When functioning properly, the ankles support one and a half times your weight when you are walking or standing, and eight times your weight when running.

Sprained ankles are almost as painful as breaks and are usually stretched or torn ligaments. Ankle sprains are fairly common and take place when you rotate your ankle too far out of the natural position.

### AEROTHERM® TECHNOLOGY

Designed to provide the therapeutic benefits of heat retention provided by neoprene, while promoting air flow.

- 1. Protective Top Layer**  
Tough nylon fabric is Mauser stitched along key stress points
- 2. Neoprene Core**  
Closed cell neoprene core insulates and retains body heat
- 3. Aerotherm® Lining**  
Allows air circulation, drawing perspiration away from skin

### Ankle Support 3004

This flexible ankle sleeve provides support and compression to the ankle while retaining natural body heat. Ideal for minor injuries such as strains, sprains and arthritic pain.

Reference	Circumference
003891-XS	16 - 19 cm
003891-S	19 - 22 cm
003891-M	22 - 25 cm
003891-L	25 - 28 cm
003891-XL	28 - 31 cm

### Ankle Stabilising Support 3058 & 3059

This firm support features spiral stays and a stabiliser to provide high levels of stability around the ankle. The additional "figure of 8" strapping provides further support and targeted compression.

Reference Left	Reference Right	Circumference
006840-S	014720-S	19 - 22 cm
006840-M	014720-M	22 - 25 cm
006840-L	014720-L	25 - 28 cm

**Size:** measure ankle circumference.
