

The first and only cervical to sacrum solution.

In the world of trauma spine care, precision, and reliability are crucial. The VRTX CTLSO is a ground-breaking solution that effectively caters to the needs of both trauma patients and clinicians. This **comprehensive off-the-shelf cervical to sacrum solution** enhances the overall efficiency of hospital operations by its specially designed features such as a bi-valved TLSO and easy to adjust collar.

This brace is part of the Aspen MP brand!

With **25 years** of research driven design, Aspen is committed to providing patients with effective solutions to their unique spinal conditions.

- **Advanced support:** Engineered to provide optimal stabilization during the critical recovery phase, reducing complications and accelerating healing.
- **Customizable fit:** With adaptable settings and its modular design, VRTX products ensure a tailored fit that enhances patient comfort and compliance during the entire recovery.
- **Clinically proven technology:** The state-of-the-art designs are backed by research, ensuring your patients receive the best care possible.
- **Unique on the market:** the only prefab product for complete cervical to sacrum immobilization.
- **Modular design:** the level of support can be stepped down to a TLSO or LSO based on the patient's needs.
