# CRYO PRO<sup>™</sup> XL

## COLD COMPRESSION THERAPY

# THE BENEFITS OF COLD COMPRESSION THERAPY

Cold compression therapy works by constricting the blood vessels, which in turn reduces swelling and inflammation. Cold therapy can also help reduce the amount of bruising by slowing down blood flow to an injured area.

Cold compression therapy can also calm muscle spasms, minimize bruising, and soothe nerve endings, helping encourage quick and effective healing for a variety of muscle, tendon and ligament injuries.

In addition, cold compression can help reduce a patient's dependence on painkillers following injury.

- Provides pain relief
- Reduces swelling and inflammation
- Prevents or limits bruising
- Slows or stops bleeding

‘encourage quick and effective healing for a variety of injuries’

## PORTABLE DESIGN

The Cryo Pro™ XL has been designed to be convenient wherever you want to use the unit. Portability is not an issue for the Cryo Pro™ XL.

The unit comes with a handle which is designed to balance when water and ice are in the reservoir.

The Cryo Pro™ XL has a carrying bag accessory designed to hold the unit and wraps.

External batteries are available so the Cryo Pro™ XL can be used anywhere, anytime. This portability makes cold compression therapy convenient for all.

High performance cold  
compression therapy

Only requires ice  
and water

Full range of wraps

## SIMPLE TO USE

The Cryo Pro™ XL is a simple to use product, requiring only ice, water and power (mains or battery).

The wraps are simple and easy to apply – one size fits all with the hook and loop fixing allowing the wraps to be adjusted to fit each patient correctly. There is a straightforward digital display with 9 settings to control session time and compression level.

The Cryo Pro™ XL is simple to empty and clean. Removing the water from the main unit is easy due to the removable lid. The wraps are easy to drain, using the draining gadget.

## WRAPS

The Cryo Pro™ XL enables you to target specific areas of pain or swelling with our four different wraps. These include Knee, Shoulder, Ankle, Full Leg and Universal.

DUAL HOSES,  
to use 2 wraps  
at the same time.

KNEE

ANKLE
