Roll Width	15'
Warranty	8 Years
Backing	Polyurethane
Traffic Level	Moderate to High
Infill Required	3" – 5" in depth

REVOLUTIONIZE YOUR BUNKER PLAY

Over the years, we've learned that traditional bunkers built with clay and sand are difficult to maintain. Rain can wash out the bunker walls, and wind can cause significant erosion, leaving golfers with high maintenance demands.

Upgrade to HAT Bunker Play for **minimal upkeep** and **maximum performance**. After installing HAT Bunker Play, simply add sand to the lowest parts to enjoy authentic bunker play with a pristine appearance at all times.

Pro Tip: Maintain sand depth between 3" to 5" for optimal results.

CLEAN, GREEN & SAFE

- Safe for kids and pets, a clean and safe environment.
- Usable in all regions and climates.
- Resistant to bacteria, mildew, and mold.
- Maintains aesthetic appeal in all seasons.
- Meets stringent environmental and safety standards.
- Industry leading 8 year* warranty
