

Come aboard!

# Junior Software Engineer - Frontend (\*f/d/m)

payactive GmbH, Dresden, Hamburg & Cologne

- ✔ Full-time (we will tailor it to fit your personal life)

### We are

We are a sustainable FinTech company and the first founded under steward ownership. Our mission is to make every payment frictionless with a positive impact on our future.

### What we look for

We don't expect you to be an expert in a specific web framework; more importantly, you have an understanding of modern web development (HTML / CSS / JS / TS).

### Essential prior experience for this role includes:

- ✔ Knowledge or strong commitment to learn about SPA web applications written in frameworks such as Angular, React or Vue (or any we do not know about).

### Key areas you will work on in the near future

Your main focus is to bring our direct debit payments feature to life. During this journey, you will build smart web interfaces in React (JS/TS) for our B2B clients as well as for their end-consumers. Part of that journey is to work on payactive's sustainability promise. That means you will connect successful payments with social cashback and thus implement screens in which people have the choice of funding different innovative projects. You will be responsible for shipping the feature to clients using Microsoft Azure Cloud infrastructure such as Blob Storage and CDN. Don't worry if you have not done that yet, we will show you.

### Further possibilities for you to explore

payactive is a member of the Microsoft For Startups program. Together, let us explore how we can improve our application landscape: Can serverless computing really improve our resilience and reduce infrastructure costs? What does Microsoft offer in terms of AI? Can we improve our user experience with such an approach?

> Help us to answer these and other questions.

### What we offer

- ✔ Super interesting tasks
- ✔ Steep learning curve
- ✔ It's never boring here
- ✔ Homeoffice, sure!
- ✔ Flexible working hours
- ✔ Much positive energie
- ✔ A good and fair salary
- ✔ Sustainability is in our DNA
- ✔ We love what we do and share it

### Where?

Remote first - you can pop in at our office in Dresden, Hamburg and Cologne.  
Or we find a co-working place near where you live.
