Jobbeschreibung

Hi!
WE ARE NOT THE MAINSTREAM.
How about you?

// Let's start off with what is MOST IMPORTANT for you to know before making the decision to apply for this: We are a startup and we're sorry to say that all the clichés are true in our case as well: We are on a tight budget and we can definitely not offer what is usually paid for a position like this (right now) but to balance this out we are willing to give a lead position/lead position title to a person that doesn't have the typical resume for it and/or offer digital company shares. We are searching for an entrepreneurial mind that is ready and excited to pick up a great project with thrilling potential, take responsibility for his/her/their department and wants to rock'n'roll with us, pilot this baby to somewhere.

Your profile
- You're a passionate swiss army knife when it comes to app/cross-platform development
- You are an experienced Flutter frontend developer with an impressive portfolio
- You believe in high code quality, automated testing and other engineering best practice
- You live for technology, strive for more knowledge and appreciate good software architecture
- You believe that you can seize the day with the right team on your side and create something special within thrilling projects
- You are sharp and witty when it comes to active problem solving as well as scalable approaches and are not shying away from new challenges and necessary research
- You want a job that is not only a job but the chance to grow personally and become part of a grand, long-term vision
- You can meet a high professional standard because you already successfully earned your industry stripes
- You can work under direction and love to be a team player but you can also fulfill a leadership role and manage a small squad of developers - motivating them and holding them accountable, committing to KPIs, and representing milestones
- We don't care whether you are self-taught or have a Master's degree as long as you are really good at what you do and are up for this adventure with us!

Requirements
- Expert in Flutter, Dart, and mobile app development
- Experience with State management solutions and (Provider) package
- Experience with unit testing and integration tests
- Experience with Cloud Firestore, Push Notifications, Cloud Functions, and Analytics
- Excellent verbal and written English skills
- Strong portfolio with relevant work examples
- A greater belief in reliability, accountability, and open communication

- Passion, ambition, perfectionism, and an entrepreneurial, growth mindset

Bonus
- Fullstack/Backend experience with Python, Javascript and Dart, Django and Django Rest Framework
- Knowledge about SQL Databases
- Understanding of native Android and iOS: To build custom Flutter Packages
- Startup experience/experience as a team leader
- Management skills
- Fluent in German and German citizen

What we offer, who we are

NOT THE MAINSTREAM is providing coaching/tutorial apps for different badass sports aside the mainstream. We want to give people the chance to dive deeper into their hobby, the thing they already love. Our sports are identity-giving, people who are practicing them usually make them play a big role in their lives. We are taking pride in this special feature, want to celebrate our users and enable them to flexibly strengthen their skills as amazing athletes.

NOT THE MAINSTREAM is a newborn company that grew out of a hobby project with which we initially just wanted to do something for the community, the sport we loved. We experienced a huge demand that we couldn't answer with just a side project, which is why we decided to create something bigger. We (of course) firmly believe that this is just the beginning, as not only we but outside experts (people who should know) see the potential of our business: We are proud to be part of the „Startplatz'" accelerator program and got some renowned scholarships and support. Now we are looking to expand our C-level rank and take one fantastic person on this journey with us (after having picked up a handful of high-quality and most lovely team members already). As mentioned above we are searching for an adventurer, high risk, high reward, and definitely want to treat you like the rockstar you are, when you are a fit, become a key part of our company. This is meant to be the start of a big story, so we want you to take the project as seriously as we do and become a long-term, full-time addition to the team, as an inspiring leader. We offer flexible hours (30-40h/week) and of course remote work - but in a hopefully brighter, lockdown-free-future we would love to have you together in an office with us. This is not a requirement though.

IMPORTANT: Please read the whole description to make sure we're on the same page. We are excited to receive your application alongside some work examples via info@notthemainstream.net - Cheers & hear you soon!!
