

# Spray smart.

## 3M™ Fastbond™ Water-Based Foam and Fabric Adhesive 1074

Meeting sustainability requirements doesn't mean sacrificing performance. 3M™ Fastbond™ Water-Based Foam and Fabric Adhesive 1074 is a water-based adhesive for foam, fabric, and upholstery bonding. Formulated with innovative 3M technology, it contains no solvents or flammable propellants and offers a higher percentage of solids than solvent-based aerosols, allowing each can to deliver more usable adhesive.

### A trusted formula.

Get the same 3M adhesives features — with a solventless air-propelled system. This aerosol is a water-based, low-odor version of 3M™ Foam Fast 74 Spray Adhesive Aerosol, mirroring our tried-and-true formula in applications and strength:

- Made for adhering foams and fabrics with industrial strength.
- Mist spray pattern optimized for foam bonding.
- Delivers soft bond lines and no dimpling.
- Recommended for general upholstery, foam lamination, attaching foam and fabric to wood and other substrates, and installing acoustic panels.

## A more sustainable solution.

As emissions regulations around the world become increasingly stringent, 3M™ Fastbond™ Water-Based Foam and Fabric Adhesive 1074 can help support your regulatory compliance efforts.

**Water-based formula** that helps meet goals to lower volatile organic compounds (VOCs), solvents, and other targeted substances.

**Two separate tips** included in the cap to keep adhesive spraying smoothly.

Can support your efforts to ensure worker safety and to meet **environmental health and safety (EHS)** goals by being non-flammable, low-odor, and manufactured with a solvent-free process.

## Simple storage.

3M™ Fastbond™ Water-Based Foam and Fabric Adhesive 1074 does not require specialized storage for flammables. The can design prevents corrosion and extends product shelf life up to 12 months.
