

Spray smart.

3M™ Fastbond™ Water-Based Multipurpose Adhesive 1077

Meeting sustainability requirements doesn't mean sacrificing performance. 3M™ Fastbond™ Water-Based Multipurpose Adhesive 1077 is a versatile, water-based adhesive designed for general industrial applications and lightweight bonding. Formulated with innovative 3M technology, it contains no solvents or flammable propellants and offers a higher percentage of solids than solvent-based aerosols, allowing each can to deliver more usable adhesive.

A trusted formula.

Get the same 3M adhesives features — with a solventless air-propelled system. This aerosol is a water-based, low-odor version of 3M™ Super 77™ Multipurpose Spray Adhesive Aerosol, mirroring our tried-and-true formula in applications and strength:

- Designed for lightweight substrate bonding in general industrial applications
- Offers a medium-strength initial grab for a quick bond
- For a variety of bonding tasks in transportation, marine, and woodworking/furniture building

A more sustainable solution.

As emissions regulations around the world become increasingly stringent, 3M™ Fastbond™ Water-Based Multipurpose Adhesive 1077 can help support your regulatory compliance efforts.

Water-based formula that helps meet goals to lower volatile organic compounds (VOCs), solvents, and other targeted substances.

Two separate tips included in the cap to keep adhesive spraying smoothly.

Can support your efforts to ensure worker safety and to meet **environmental health and safety (EHS)** goals by being non-flammable, low-odor, and manufactured with a solvent-free process.

Simple storage.

3M™ Fastbond™ Water-Based Multipurpose Adhesive 1077 does not require specialized storage for flammables. The can design prevents corrosion and extends product shelf life up to 18 months.
