

505

A Natural Fit with Excellent Grip

APPLICATIONS

Metal Fabrication
Construction
Glass Handling
Appliance Manufacturing
Plastics and Molding
Public Utilities

FEATURES

Known for great fit, flexibility and dexterity, Worldwide 505 gloves also deliver remarkable ANSI A4 cut protection. Slip them on, and in minutes you'll feel them conform comfortably to your hand. The secret is in our thin, black Nitrile hybrid dip that also provides excellent grip and ANSI Level 3 abrasion resistance. Holds up well against a wide range of chemicals, too. Light weight, 13 gauge 505 gloves feature our exclusive Advanced Technology Armor® (ATA®) performance engineered yarns for strength and durability. Machine washable, too. Fully CE rated and ready for use in the EU.
