COMFORTABLE HEARING PROTECTION

SPARKPLUGS®

SOFT COMFORTABLE FIT

Moldex® SparkPlugs® are made of extra soft, extra light foam. Their tapered shape fits easily in the ear canal, allowing them to seal gently and snugly without pressure. They're so comfortable you'll forget you're wearing earplugs.

6645

- SparkPlugs earplugs are independently tested and offer a 33 dB NRR, making them suitable for most noisy environments.
- Extra-soft, low-pressure foam for comfort and fit.
- Tapered shape for easy insertion and removal.
- Non-irritating smooth surface.
- 100% PVC-Free for a more sustainable alternative.
- Available in a variety of options including Small, Corded, Uncorded, Dispensers, and Metal Detectable.

METAL DETECTABLE VERSION

SparkPlugs also come in a metal detectable version which has a metal detectable cord. The bright blue color is perfect for food processing applications. The enclosed metal ball bearing eliminates any exposed metal. The ball bearing and cord are in separate holes so that the earplugs remain detectable even if the cord is removed.

NOW AVAILABLE IN A SMALLER SIZE

Moldex is pleased to introduce SparkPlugs Small—designed for workers who need a smaller fit. They deliver the SparkPlugs comfort and protection crews trust, now in a size better suited for smaller ear canals. SparkPlugs Small offer an NRR of 29 dB.

MODEL NUMBER	DESCRIPTION	DISPLAY QUANTITY	CASE QUANTITY

WARNINGS

1. **Use these laboratory derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending upon how the protectors are fitted and worn.**
2. **Failure to follow all instructions and warnings could result in increased risk of hearing loss, serious injury or death.**
3. **Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.**
4. **Over protection can be dangerous. The wearer must be able to hear warning signals.**
5. **Wearers with hearing loss should exercise extreme caution.**
6. **It is the employer's responsibility to ensure that the type of hearing protector and its rating is appropriate for the user in their particular workplace.**
7. **Earplugs must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.**
8. **If irritation, redness or discomfort occurs, discontinue use and consult a licensed health practitioner.**
9. **If earplug is corded, use caution when working around machinery or any other equipment to ensure neck cord does not become caught or entangled.**

Keep earplugs away from infants and children as they may get caught in the windpipe and create a choking hazard.
If corded, the cord is a potential strangulation hazard.
