

Angled Dump Tub

Series 6901

Remco

Sloped Edge

The sloped edge and lip are designed to work with the Remco dumping undercarriages 6903 and 6906, and allow for contents to be easily transported and emptied

Total-Color

Five total-color options allow for these tubs to easily integrate into a color-coding system

Durable

High-density polyethylene construction makes these tubs a durable solution

Remco color-coded tubs and tub accessories offer a combination of durability and versatility. Manufactured from high-density polyethylene, they can be used for transporting, freezing and storing. This model has an angled edge that allows the unit to be tipped and emptied easily. Tubs are available as standalone items or with regular or low steel undercarriages.

Angled Dump Tub

6901

These tubs meet all USDA specifications and are commonly used for meat, seafood, poultry, commercial fishing, confectionery, bakery, and grain applications. They're a durable and economical solution that come in total-color for color-coded facilities.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
