Leather protectors are to be worn over rubber insulating gloves.

They are not to be used for electrical protection.  
 For use with Class 1 and 2 rubber voltage gloves.

**Size: 8 - 12**

### FEATURES

- Grain goatskin provides a balance between abrasion resistance, dexterity, durability and comfort.
- Kevlar® stitching ensures a strong construction.
- Reinforced thumb improves the durability of the glove.
- Fourchettes between the fingers improves the fit over rubber high voltage gloves.
- Extended gauntlet cuff offers protection to the rubber voltage glove in the wrist and forearm area.
