

CHROME
SERIES®

4081

HexArmor®

Chrome Series®: Our signature mechanic's style glove line that redefined cut protection, impact resistance, and dexterity in the safety industry.

A traditional leather driver in fit and feel, the Chrome Series® 4081 offers further safety with an interior layer of SuperFabric® brand material on the palm to deliver outstanding cut, puncture, and abrasion protection where you need it most. In addition to a traditional level of comfort, the goatskin leather shell delivers a familiar grip that increases in dexterity the more it's used. A Slipfit® cuff assists with a quick on and off between tasks to complete the glove.
