

Your Safety is in Our Hands!

M13TM / M13TM-B

Worldwide Protective Products styles **M13TM** or **M13TM-B** are 13 gauge gloves constructed using either white or blue thermal poly/lycra fibers. The unique components of this family of products allows moisture to be **wicked away** from the hand keeping you dry, while the thermal characteristics help keep the hand warm. Their superior insulating properties make these gloves a **terrific choice** to be used as a liner. The fit and form of these gloves allows for one size to fit most hands. 100% made in the USA.
