

**Your Safety is in Our Hands!**

# MSATAC

ANSI level 4 cut protection in a single ply design. The **MSATAC** family of sleeves is a premier line of arm protection constructed from proprietary ATA® fibers. These 1-ply sleeves offer cut resistance that is **2x greater** than comparable 2-ply para-aramid sleeves, as well as a lower unit cost. Available in any length and with or without a thumbhole. (denote the letter "T" after sleeve length in part # for thumbhole)

## PRODUCT DETAILS

### ■ Features

Single-Ply Design / Light Weight Sleeve  
Unique ATA® /Cotton Fibers / Made in USA  
Available in Any Length / Available with or w/out Thumb Hole

### ■ Benefits

ANSI Cut Level 4 Protection / Machine Washable  
Moderate Heat Protection / Cool & Breathable

### ■ Attributes

Sleeve / Cut Resistant / ATA® Material  
Color - Yellow / Case Pack - 200 Ea

ANSI Level - 4

## Moderate Heat Protection
