OLFA MXP SERIES DIE-CAST ALUMINUM HANDLE KNIFE

OLFA MXP ALUMINUM METAL SERIES

Preloaded with **Ultra-Sharp Black Snap-Off Blade** crafted from premium Japanese tool steel for unmatched sharpness and superior edge retention.

Wraparound anti-slip **rubber grip** for all-day comfort and maximum control. The **stainless steel channel** keeps the blade securely in place.

Designed with safety in mind, the **ratchet based locking system** allows for custom cutting depths and unlimited positions. The **auto-lock** allows the blade to retract into the handle with tactile and audible clicks at each stop to assure correct blade placement.

Durable, slim handle delivers detailed cuts through thick materials. **Rugged metal body** resists corrosion. Handle can be **tethered for safety**.
