

Revelation Specification Sheet

Ratings: Meets or exceeds ANSI Z87.1 Safety Standards

GENERAL SPECIFICATIONS																																														
Lens Thickness:	2.0 - 2.2 mm																																													
Lens Base:	8 curve																																													
Lens size Vertical:	45.5 mm																																													
Overall Length:	150 mm																																													
Overall Width:	145 mm																																													
Country of Origin	Taiwan																																													
COMPONENT	MATERIAL																																													
Lens	Polycarbonate (Bayer 3103**)																																													
Frame	Nylon (DuPont ST 801**)																																													
Side Shields																																														
Nose Piece	Flexible PVC (Formosa Plastic PVC 100**)																																													
Temple Tip																																														
Temple	Nylon (DuPont ST 801**)																																													
Screw	Metal																																													
** or equivalent																																														
Features & Benefits																																														
4-position temple length adjustment provides a comfortable fit																																														
5-position ratchet temple provides a customized fit																																														
Built-in ventilation channel between frame and lens provides extra fog control and venilation																																														
Non-slip rubber nose pad provides for all day comfort																																														
Polycarbonate lens provides impact resistance																																														
** Polarized lens reduces glare allowing a crisp view of the surrounding environment																																														
Available Lens Colors
