P R O T E C T I V E P R O D U C T S

Worldwide Protective Products style **MSATP** sleeve is the latest advanced technology in arm protection. Constructed using proprietary ATA[®] fiber technology, this 13 gauge sleeve gives the wearer ANSI level 3 protection, in a light weight 1-ply design. The dark heather grey color helps to hide dirt and soiling, extending the life of the product. These sleeves are available in any length, with or without thumbholes and are fully launderable.
