How landlord insurance covers you

Water damage coverage

During a cold snap, a frozen pipe in an upstairs bathroom ruptured, causing water to leak through the ceiling and damage the living room furniture and fixtures below.

Fire damage coverage

A tenant used the fireplace with an improperly closed screen which allowed sparks to pop out, igniting a small section of the hardwood flooring and requiring repairs to the surrounding drywall.

Liability coverage

A tenant's guest slipped on an uneven step leading to the front porch, resulting in a minor injury and a liability claim against the property owner.
