

Pre-hospital emergency medicine

Date: Thursday 9 September 2021
 RCEM accredited for CPD
 GMC domains covered: 1 and 3
 RCEM Curriculum 2021 Specialty Learning Outcomes: SLOs 1 - 4, 6 - 8, 12
 RCEM Curriculum 2021 codes: XC2

This event will help delegates understand what happens to patients in the pre-hospital setting before they arrive in the ED, including the limitations, innovations and how we can improve the PH-ED interface as well as giving an insight into PHEM sub-specialty training: useful for trainees considering PHEM or Consultant Educational Supervisors supporting trainees with career choices.

CPD certificates

CPD certificates will be sent to those who attended the live session ten working days from the end of the event. Please note, you are required to attend the live event in order to receive your CPD certificate.

Learning objectives

- To understand PHEM sub-specialty training
- To be up to date with OOHCA management in the pre-hospital setting
- To be up to date with the pre-hospital management of a major trauma patient
- To understand the interface between the ambulance service/pre-hospital critical care teams and ED
- To consider how PH-ED collaboration in your ED can improve patient experience and outcome

Who should attend?

- EM clinicians at all levels

What to expect

- Presentations will be available for delegates to view four weeks before the live event. Delegates should ensure they watch the recordings prior to the live event.
- You will have the opportunity to submit your questions in advance via SurveyMonkey. The survey will close 7 days prior to the event to allow the panel to review your questions. Some live questions may also be taken at the event.

Pre-recorded presentations
