The **Eco-Ethical** Company

SAVIOLA IS A BUSINESS UNIT OF THE SAVIOLA HOLDING, AN INDUSTRIAL SYSTEM VERTICALLY AND HORIZONTALLY INTEGRATED, ABLE TO REACH HIGH RECORDS IN DIFFERENT COMPETING MARKETS, BOTH FOR PRODUCTION VOLUMES AND ADOPTED TECHNOLOGY.

Everything started in 1963, when the founder Mauro Saviola had the intuition to transform his own carpentry activity into an industry of chipboard. The turning point came in 1992, when before anyone else, the entrepreneur from Viadana understood that post-consumer wood could have a new life: the Ecological Chipboard was born and still it is the main product of this organisation. Today, Alessandro Saviola is the president, the Gruppo has Viadana (MN) as headquarter, including four businesses: Saviola, Sadepan, Composad and Saviolife, operating respectively in sectors such as Wood, Chemistry, Kitchen furniture and "Life Science". Gruppo Saviola is the most important processor of post-consumer wood of the world. The production philosophy is based on recovery and reuse of secondary raw materials, which can be revived and reused without the need to cut down trees. A cyclical logic economically and ecologically

sustainable. With absolute reference to the wood sector, Saviola is the principal entity of the group (including 9 plants), leader (in Italy) in the production of chipboards, melamine chipboards (more than 50 mln sqm of decorative surfaces produced each year) and first in recycling post-consumer wood. Through 20 Ecolegno Network centres over the entire national territory – Saviola is able to recover more than 7,2 mln tons of wood. A process that allows to save more than 70.000 trees every day and, at the same time to offer unique products such as melamine chipboards "embossed in register", with finishes able to faithfully reproduce at sight and touch the essences and veining of virgin wood. Besides the Raw Ecological and Melamine chipboard, Saviola offers several other products, such as Laminates (more than 75 mln sqm) and edge bandings, creating a unique and complete set available to the furniture industry and "Contract" channel.

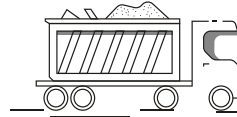

saviola . the first 100% recycled wood

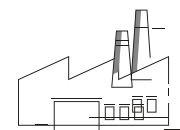

Life cycle
(Circular Economy)

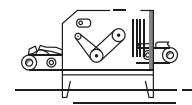

The old furniture
is collected in a dump

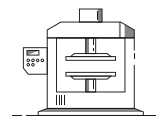

The wood waste
is collected in Italy
and Europe

Wood is separated
from other materials

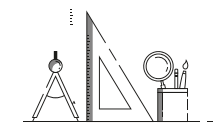

Wood cleaning

B E . C O L L E C T I O N

The new Trend -à- Porter Collection has been conceived for the design world, it collects decorative elements combined with unique textures. It offers an actual coordinated kit consisting of melamine panel, laminate and edge: a concrete solution to satisfy the demand of a sector in constant evolution.

The idea at the base of this collection is to provide a “design tool for design”, it was born to respond to the primary demand of the furniture and interior architecture world.

The collection is the outcome of a continuous creative internal process, which starts from the creation of the drawing and it concludes with the commercialisation of exclusive products focused on satisfying the exigences of the market. The Trend -à- Porter Collection is inspired by the fashion and architecture world, to create products able to satisfy the needs of today and the trends of tomorrow.

STYLIN'ART

Stylin'Art is a family business founded in 1940 with tradition. Today, the third and fourth generations are at the helm who can count on a hard core of experienced employees, dynamic youngsters and independent workers. We offer a wide range of decorative board materials for kitchen and furniture makers, interior decorators, designers and architects.

With in-house production, ample storage, extensive distribution and branches in Antwerp and Ghent, we guarantee smooth service.

BE . COLLECTION

Textures

Creating our textures is never a foregone process. Sometimes, it derives from the study of Nature and its infinite features, other times, we let ourselves get inspired by artistic patterns or geometric rigour with results that go beyond the natural imprint.

W88

W89

inspiration

Fo6

The precious veil varnish is brought to life
by this **soft touch texture**, which gives a
refined super opaque effect to every surface.

F54

Raw and rough to the touch, it follows the natural sensation of stone, an increasing trend in the interior design sector.

inspiration

So1

Scratch resistant and anti-fingerprint

functional finish which donates brilliance and depth to colours.

W39

This embossed in register (EIR) texture is a realistic interpretation of a rotary veneer, very trendy in the modern architecture.

inspiration

W48

Texture with a **marked print** where deep grooves trace evident and matt signs on the surface.

W85

?????????

inspiration

W87

Italian walnut texture embossed in register,
it is characterised by a cathedral flame and super
opacity which enhances the colours' depth.

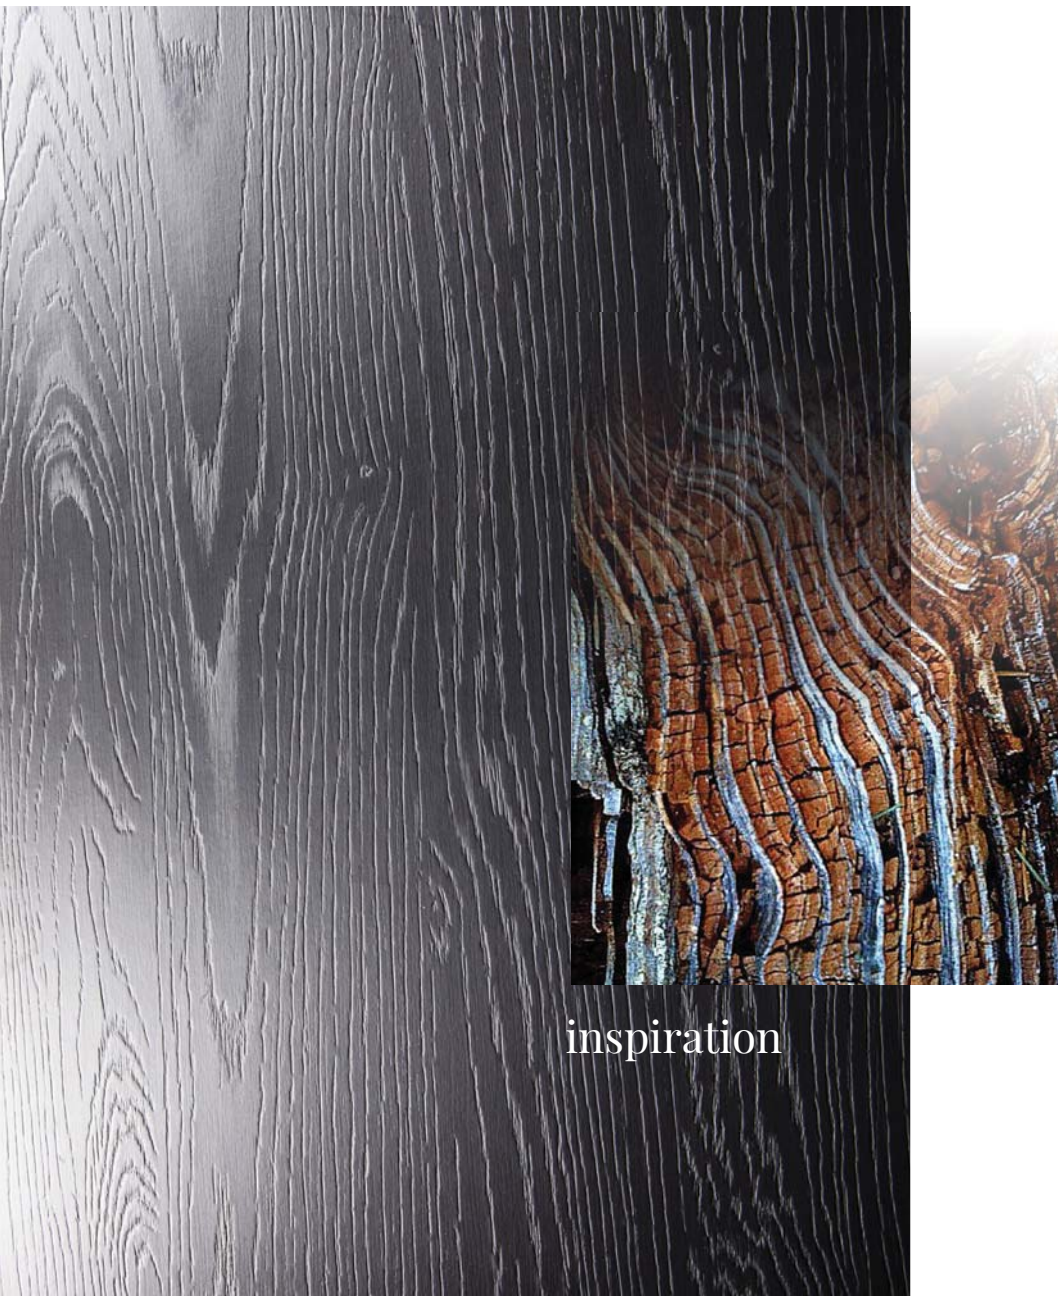

inspiration

W88

Rustic table pattern of exceptional beauty,
embossed in register or universal. It perfectly
adapts to oak, walnut and any other wood with
rustic design, creating a strong sensation of real,
natural and authentic wood.

inspiration

inspiration

W89

A texture whose character is ideal for an elegant furniture that reveals rustic details. The sinuous and diversified lines create a movement that is harmonious and incisive.

Decors

W550-W87

Noblesse Claire

TREND - À - PORTER . 26

W550-W87

Noblesse Claire

A classic walnut decor, which becomes trendy by the hazel colour and above all by E.I.R technology.

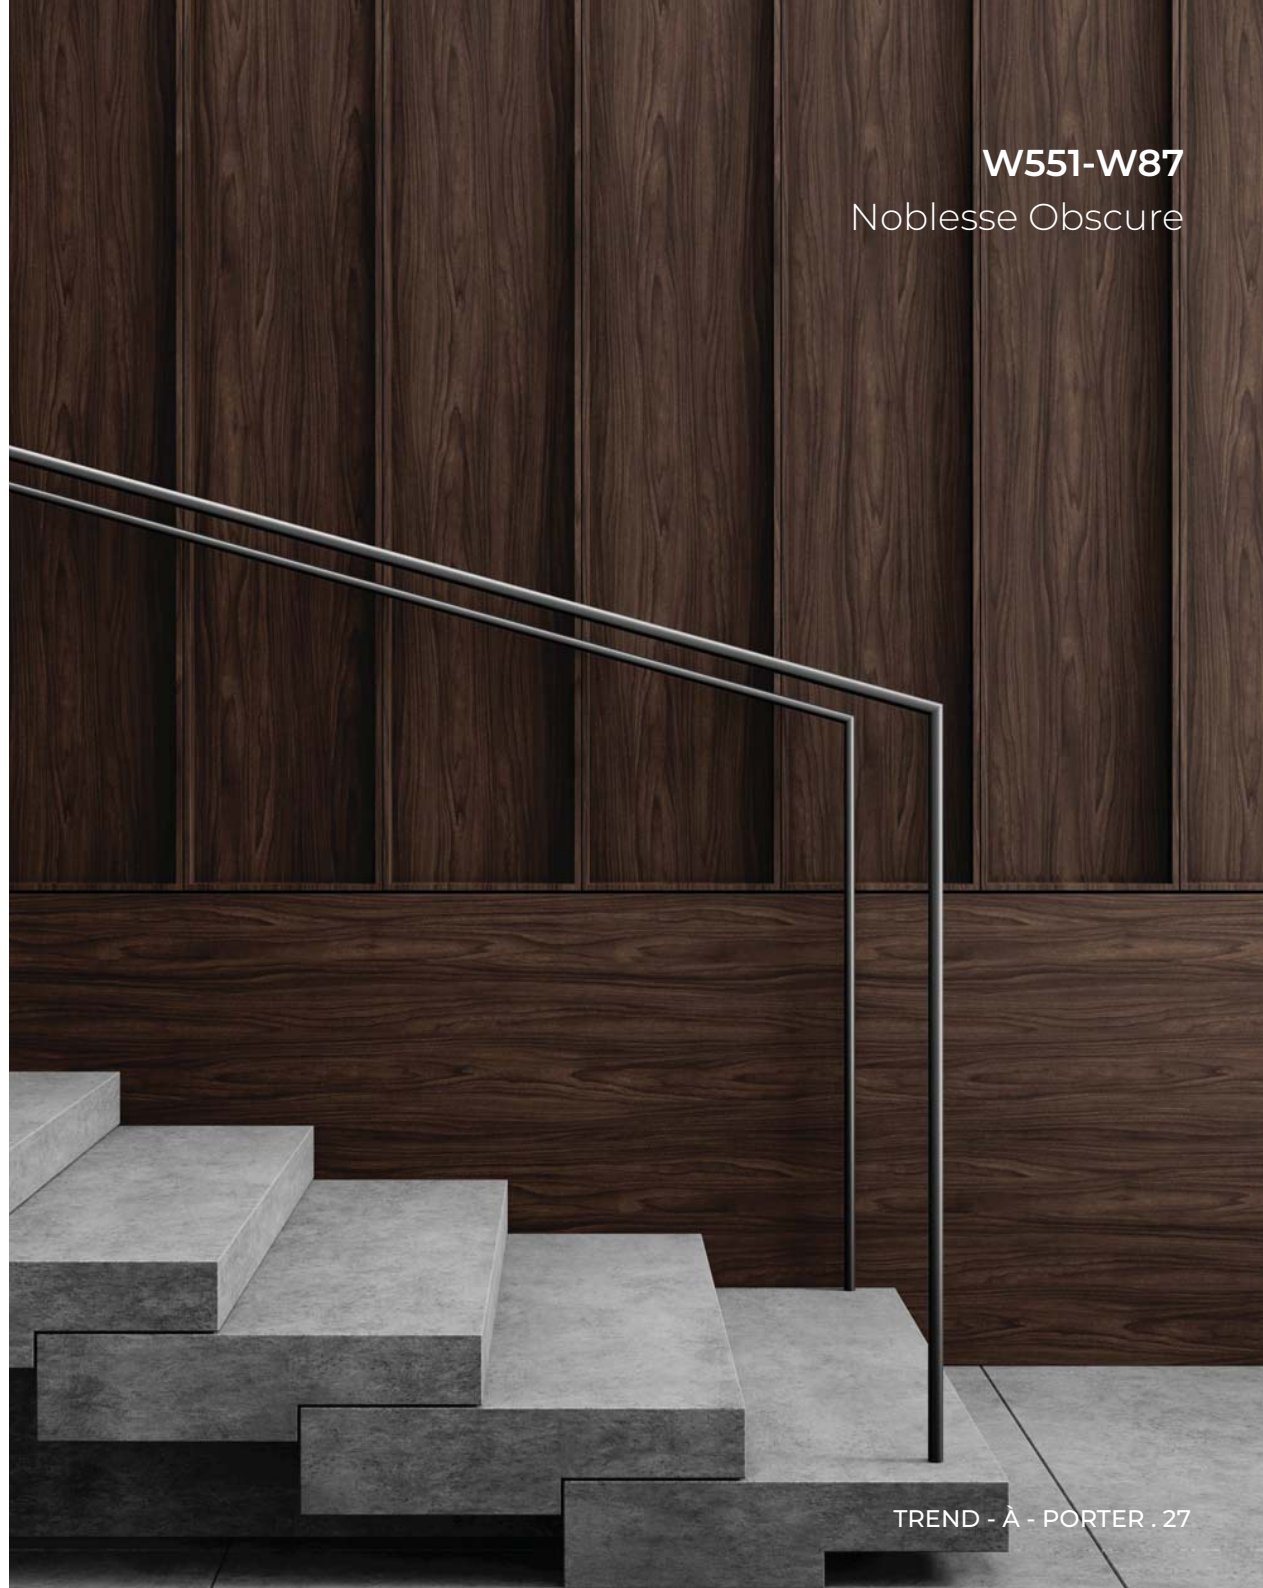

W551-W87

Noblesse Obscure

A beautiful realistic walnut décor with a **strong personality**. The flagship of dark woods which is never out of fashion. It will customise and embellish any environment.

W551-W87
Noblesse Obscure

W530-W88

Cabane

TREND - À - PORTER . 28

W530-W88

Cabane

This synchronised (EIR) décor offers the **typical features of solid wood**. The natural colour combines with both modern and traditional environments.

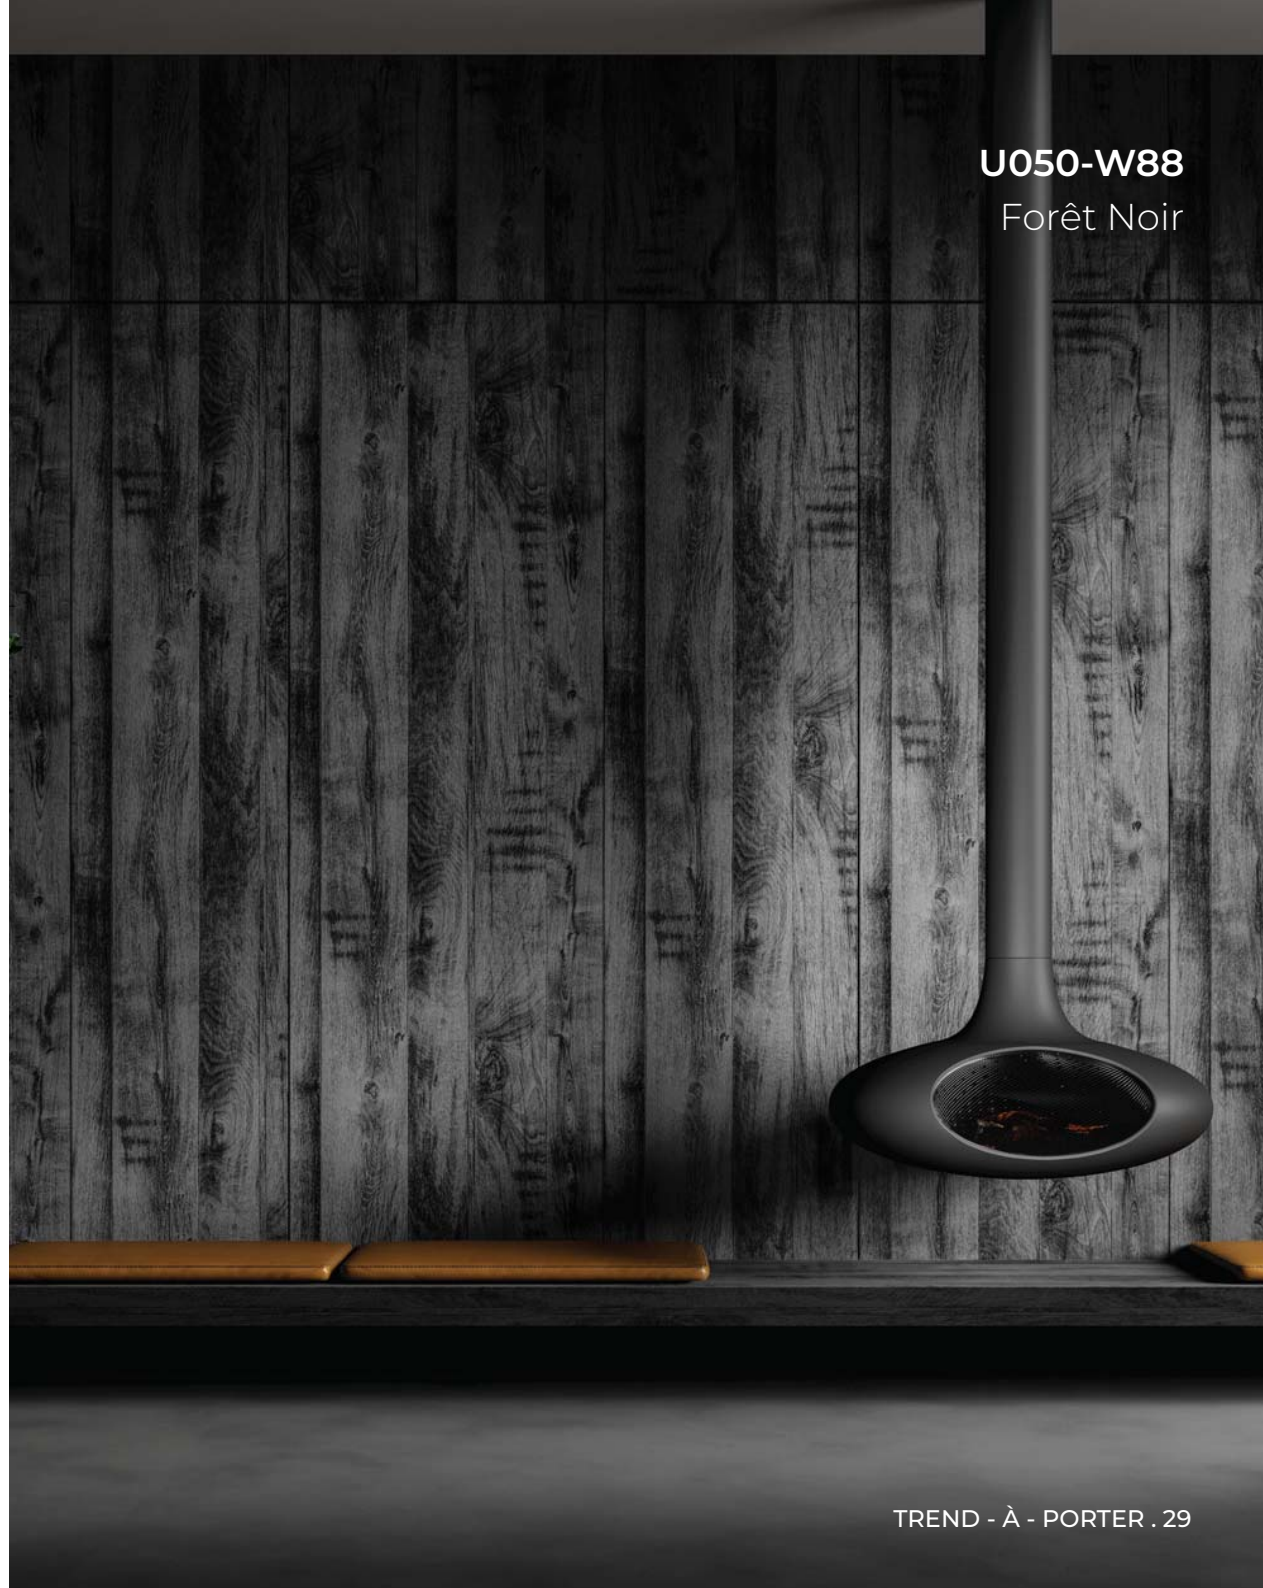

U050-W88

Forêt Noir

Black oak with rustic grains. The warmth of the wood finish together with the intensity of the black colours suit with modern and exclusive environments.

U050-W88

Forêt Noir

W549-W48
Notre-Dame

TREND - À - PORTER . 30

W549-W48
Notre-Dame

A wooden planked board completely different from the traditional oak which brings a fresh alternative to the surface **world**. A grey colour with a warm shade, it creates a new option into the rustic décor collection.

W527-W89

Driftwood Oak

A natural oak, rich of details. The feeling between black and white makes it adaptable and suitable for trendy solid colours: from white to black, passing through all shades of grey.

W527-W89
Driftwood Oak

U050-S01

Black Ultramatt

U050-S01

Black Ultramatt

Black in its most pure form. The combination with the S01 finish – scratch resistant and anti-fingerprint functional finish – donates brilliance and depth. Black Ultramatt becomes an essential component for any environments.

U047-S01

Umbra grau Ultramatt

A deep and matt shade of grey which combined with the S01 finish – scratch resistant and anti-fingerprint functional finish – donates brilliance and depth.

U047-S01
Umbra grau Ultramatt

TREND - À - PORTER . 33

U047-F06

Umbra grau silk

U047-F06

Umbra grau silk

A deep and matt shade of grey. Smart solution following latest trend, which furnishes any space with style and practicality.

W534-F54 Mountain Lodge

The MOUNTAIN LODGE is a rustic ash designed for modern and unconventional environments.

It is suitable to “industrial” interpretations, if combined with mud colors and concrete structures or to “greener” environments if combined with light natural fabrics and colours, such as milky white and beige.

W534-F54
Mountain Lodge

D734-F54

Pinara

D734-F54

Pinara

Cement in its most refined form. The colour fits with modern and innovative combinations.

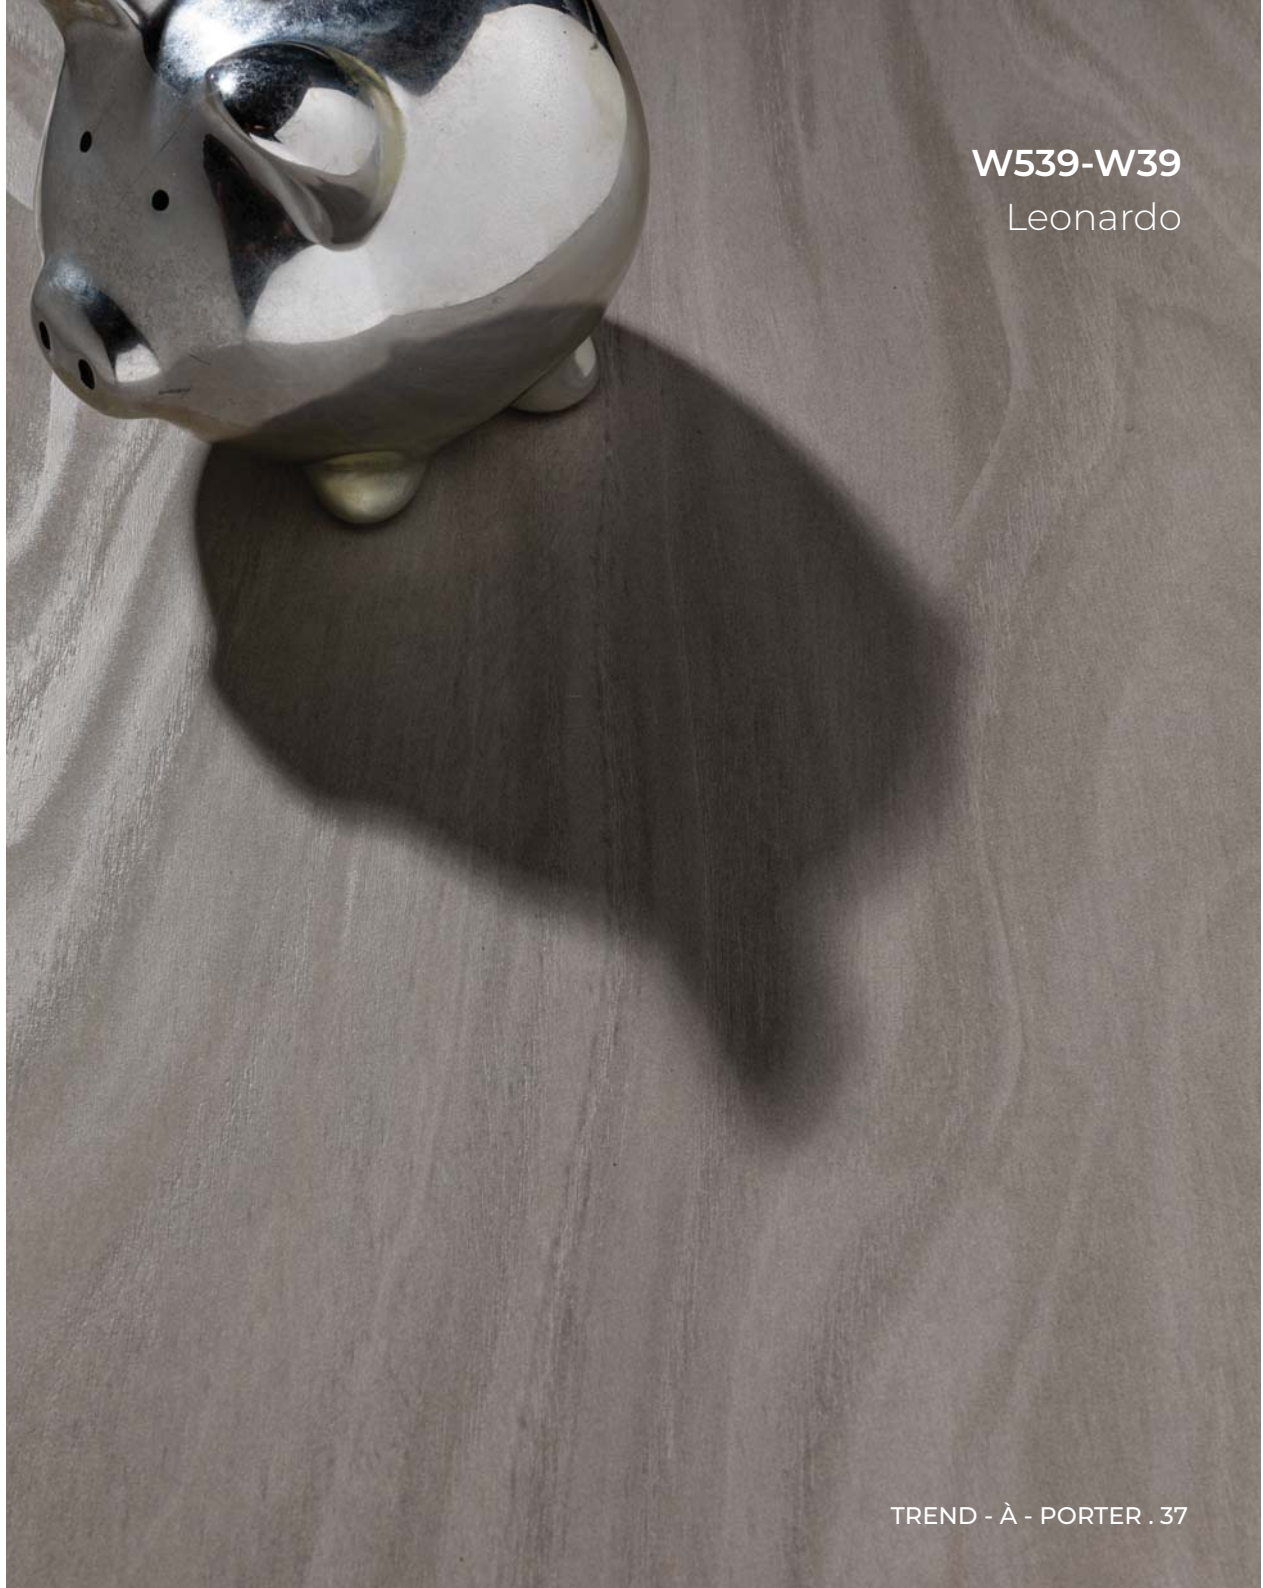

W539-W39

Leonardo

A warm light grey with an impressive deepness and a strong matt-gloss finish reproducing lackered solid wood.
