Interests

I am very keen on voluntarily shooting photography for local groups, I have shot multiple marathons and triathlons. Photography and blogging outside of my profession is a huge interest of mine, and connecting with other photographers over the world, I think it's very important to keep connections. I go to the gym regularly to keep in shape and stimulate the brain. Lastly, reading. From reading Robert McKees 'Story' to Batman comics, I tend to read and research anything.
