

I am a professional spark, with strong skills and experience working across a variety of genres, including Drama, Factual, Commercials and Documentary. Working for clients such as Sky Arts, Channel 4, BBC and Smirnoff.

My work has taken me filming throughout the UK and Europe. Facing challenging shooting environments such as freezing temperatures during a six-hundred-meter climb to scout and film on location, to tense situations where patience and cultural sensitivity are essential.

The enthusiasm I have for my work is always supported by a professional attitude and a creative eye for diverse lighting.
