Reasons Why You Should Pursue CISSP Certification

See how we're working
towards our goals

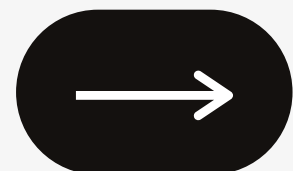

A CISSP Practitioner must know about so many perks of doing this globally approved certification:

Fulfil Experience Requirements

In order to register for this CISSP certification exam, you must showcase that you possess a minimum of five years of professional experience in information security field.

1 You possess a four-year college degree

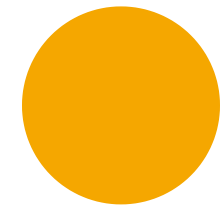

2 You possess an advanced degree in information security from a U.S. National Centre of Academic Excellence in Information Security.

3 -You have a credential from the (ISC)2-approved list; this list encompasses the Microsoft Certified Systems Engineer (MCSE), the CompTIA Security+, and even Certified Information Systems Auditor (CISA) titles.

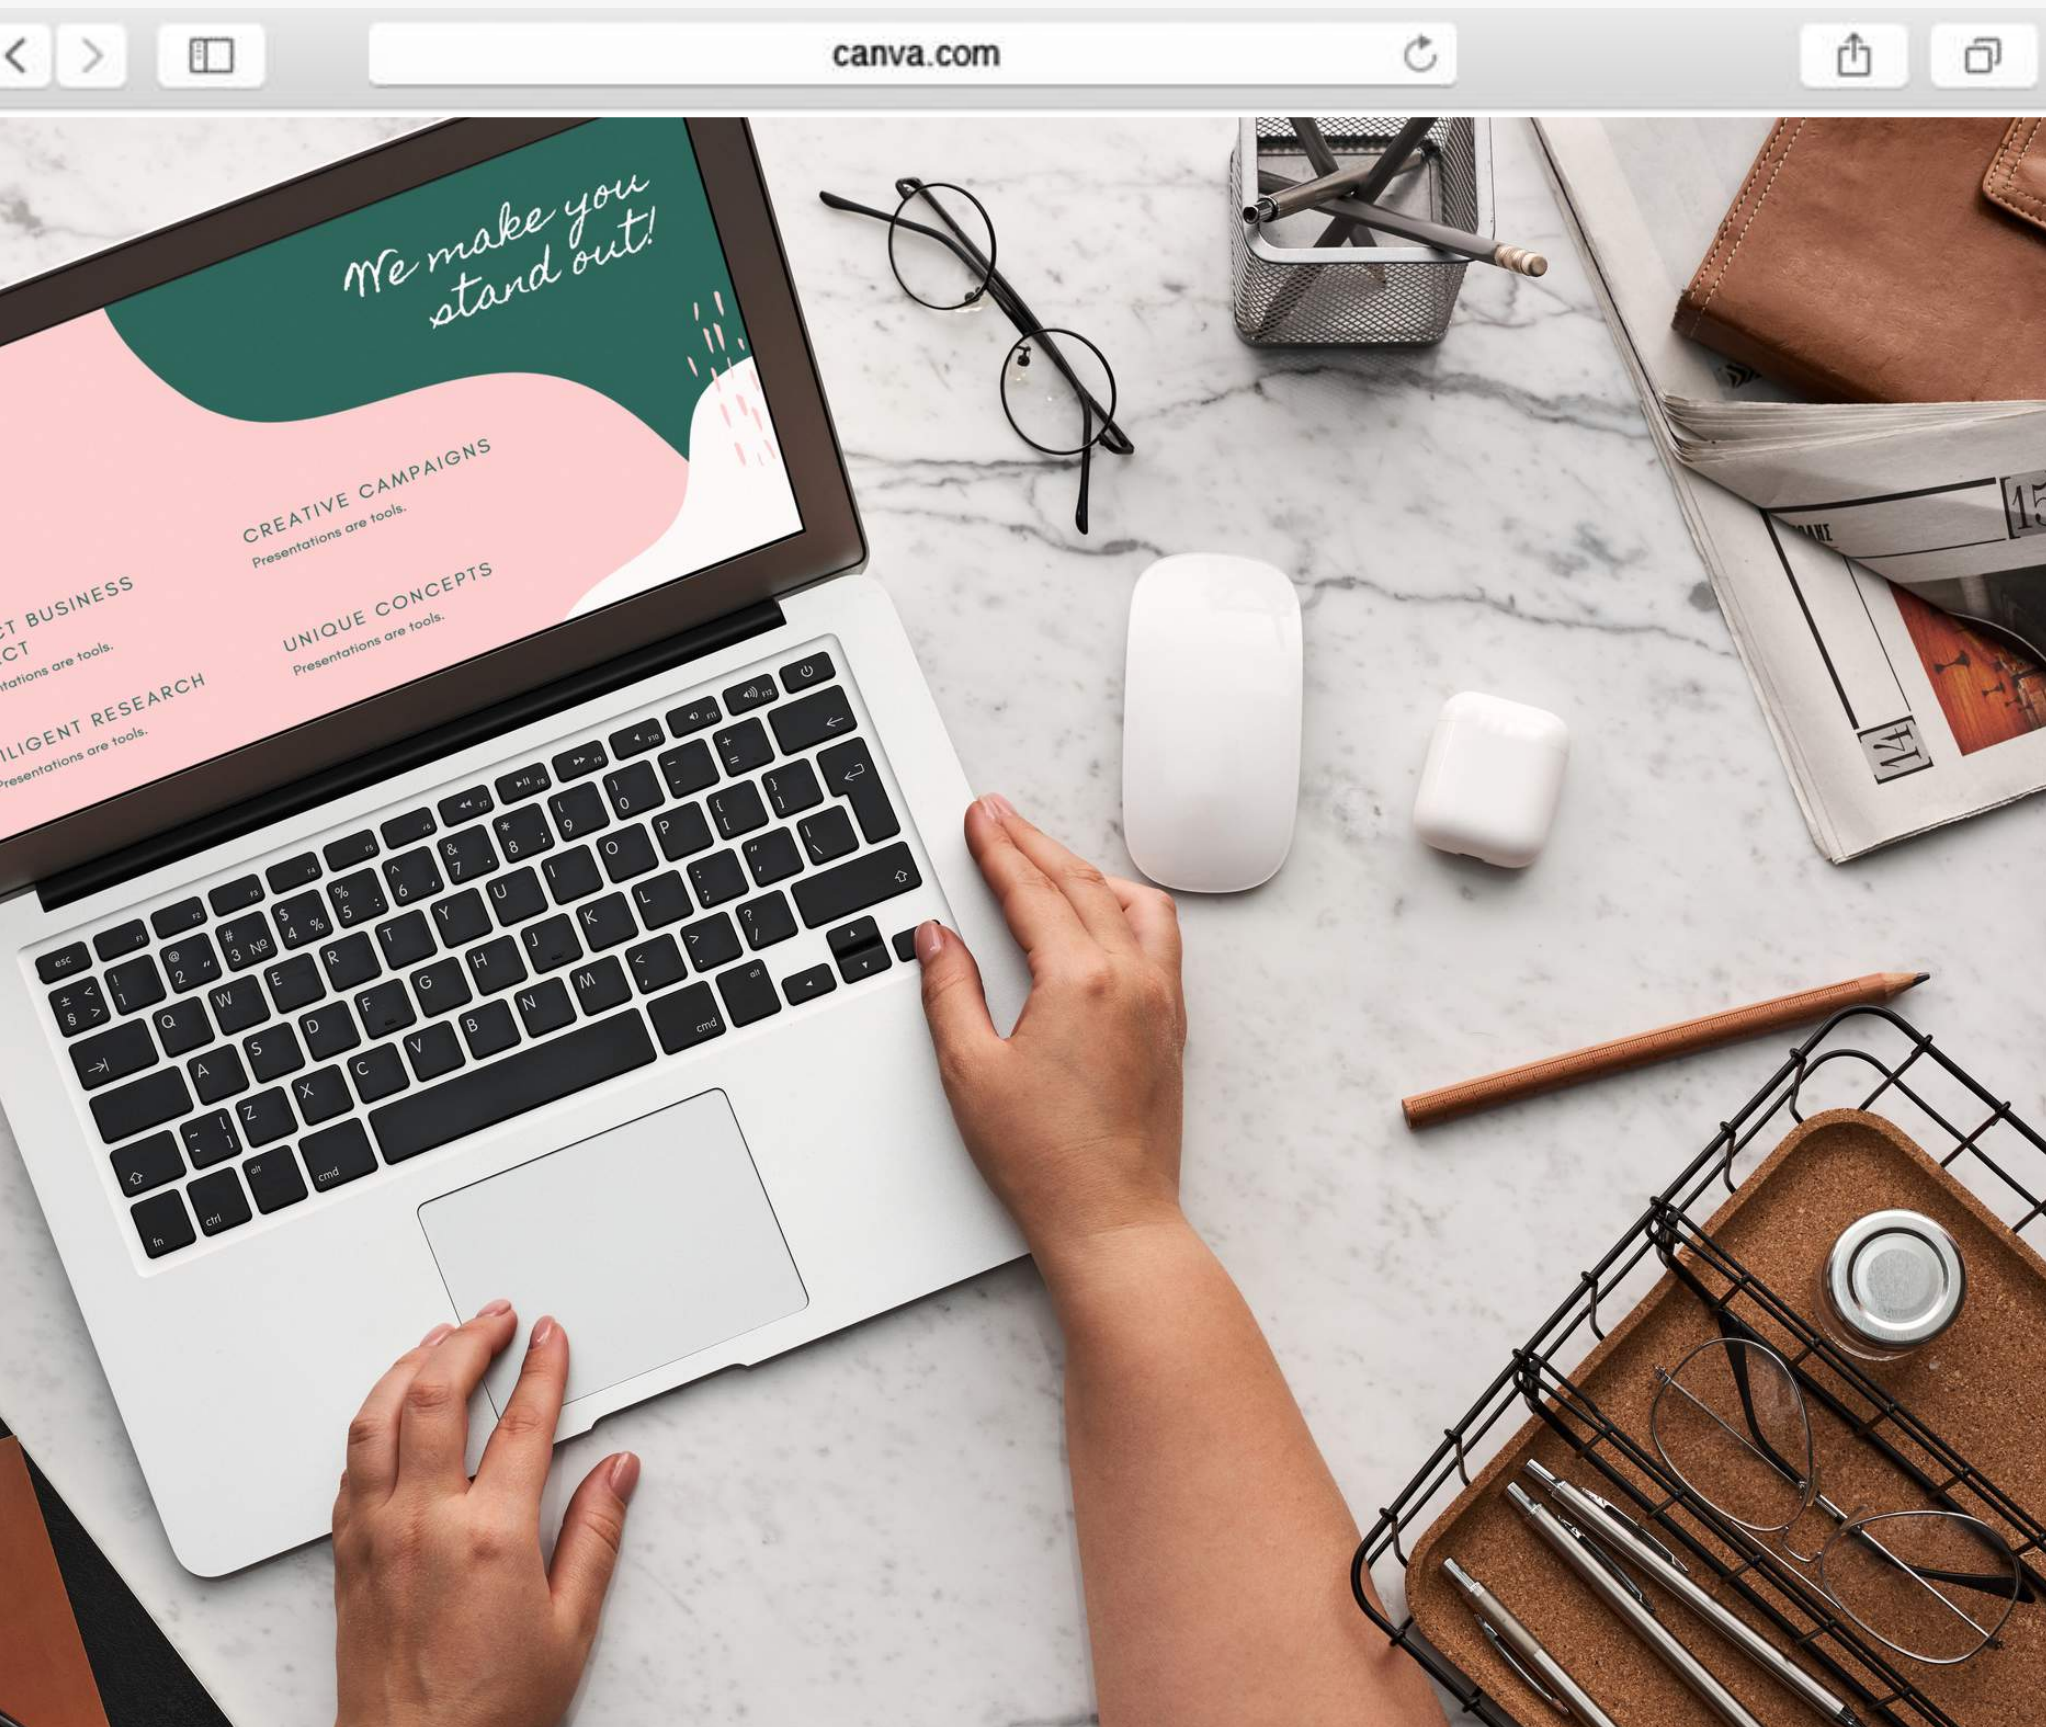

You have to get through

In order to fulfil this requirement, you must pass the CISSP certification exam with a score of seven hundred out of one thousand or greater. If you enrol to take the CISSP directly with (ISC)2; please remember that then you have to travel to reach closest authorized testing location. If you feel that you would not be able to work so hard without any professional assistance then you can avail for **CISSP online training**. You can train yourself with professionals. Remember this exam itself is a test of stamina; the pencil-and-paper exam has 250 multiple-choice questions wherein you are given 6 hours to answer as many of them as you might correctly.

- Software Development Security

Obtain an Endorsement

Once you have passed this CISSP exam, you are still not done. You must ask an active (ISC)2 credential holder who can prove to your industry experience to complete an endorsement form for you. Once the (ISC)2 receives and favours the endorsement, you can finally lurch a sigh of satisfaction: You would be a real-live CISSP!
