Personal Statement

I am a film director, TV and web content creator and video editor. I have worked in the Kenyan film and television industry for over 13 years, starting out as a grip, then moving on to video editing where I worked on music videos, films and TV content as well as working as a Promo Producer for a couple of years.

I later moved into directing and have made content for TV including movies, drama series and talk shows, as well as films for cinema release.

My latest project was the web series *Janjaruka*, which was produced by our small independent Nairobi-based company, Flick 7 Pictures.

I am driven by the stories around us and want to make sense of the world using the powerful tool that is film.
