FEATURE

GIFTED PAIN 2021 3RD AD

As 3rd AD I was involved in a wide range of tasks but the main responsibility was to ensure the Director was supported in every capacity. I coordinated the movements and direction of extras and maintained a clear communication between cast and crew. Due to the lack of Assistant Directors, I was also given the task of writing up a basic call sheet and to email cast directly to keep them updated. This was my first experience of call sheet writing.

SALLY JUMPED... 2021 3RD AD

For this production, although much of the same applied, I also organised food requirements with direct contact to the cast and crew and set up a list for the chef to easily digest.

PAINTBALL MASSACRE 2020 RUNNER

Paintball Massacre required lots of traveling across a large quarry, as a runner it was important for me to get a task done quickly and to plan ahead before I set off to do the task. Making sure everyone on set were either comfortable or in need of refreshments. We all had excellent radio communication between each other. I was even involved in SFX.
