### **Professional Summary**

Exceptional and quick thinking music producer, with a solid background of successful music and project completion. Motivated, able to lead and solve problems that may come my way. Areas of expertise include communicating, listening and project planning.

### **Skills**

Great listener, demonstrated when working with artists and other music producers to collaborate on musical productions.

Great communicator demonstrated when considering the needs of what the artist may feel or think during a recording session, motivating and ensuring that the artist/customer feels positive.

Good time management demonstrated when setting myself a goal to finish a project within a certain time frame.

Good Project planning demonstrated when planning a personal project, researching around this topic and evaluating possible risks, opportunities and unforeseen problems.

Positive mental attitude towards both life and work ethic demonstrated by the multiple E.P's and tracks that I have released.

Very driven and motivated demonstrated through finishing a B.A in Electronic Music Production at the Age of 21, now looking to apply my skills elsewhere.

Excellent computer skills specialising in sound design, use of complex programs to arrange and orchestrate productions. Creative practice using D.A.W. (Digital Audio Workstation) softwares.
