### **Assistant Manager**

Premier Stores - Looe

March 2020 to November 2020

Being assistant manager at this particular store required me to manage the full shop alone most of the time, therefore I took on almost every role within the shop from stacking shelves, taking inventory, placing orders to keep the shop stocked, cashing up at the end of the day and ensuring the store was fully locked overnight. Living nearby also meant I could easily assist on my days off if my colleagues were struggling or had any major issues such as equipment breaking or to give them a lunch break.

### **Customer Assistant**

They do a lot of work with disabled and elderly people and do various activities with them which usually revolve around communication and some light hearted fun. I went to different locations to film each of the different things that they do and put it all together into a video for the company.
