As a creator of animations, I am very dedicated, resilient and patient. I enjoy putting my energy and passion into things I love. I spend most of my days designing different animations of all of my interests. It would be a dream of mine to work on an aardman animation. I have an undeniable passion for stop-motion animation and love the other movies and shows aardman have created.

EXPERIENCE AND EDUCATION

Melksham Oak Community School

I attended Melksham Oak Community School in year 9 and completed my high school experience there. I worked really hard for all my exams, stayed behind for lots of extra periods of learning to extend my knowledge to achieve my grade goals. Most importantly I received a C in English (equivalent to a 4), Maths B (equivalent to a 5), Science a C and lastly a B in Religious Education.

Wiltshire College (Salisbury)

In 2017 I attended Salisbury College, I studied TV and Film Level 3. During my time here, I completed a numerous amount of assignments and coursework as well as many practical tasks, not only did this extend my level of patience, it also taught me a high amount of writing skills due to the pre-production paperwork I had to complete before any practical work could be conducted. In addition to this, I created an advert for a nearby company where we were following all the necessary steps to achieve a media production. Overall, out of the two years I studied at Wiltshire College I was awarded two diplomas in TV and Film.

Commonwealth Realm Editing Experience

In 2019 I applied for a job through the video-streaming platform, YouTube, editing videos for a well-known youtuber known as The Commonwealth Realm. I started in May and the position ended in November the same year when my services were no longer required. During this

experience I expanded my editing knowledge, stepping out of my comfort zone and having to adapt to their style of editing.

The Entertainer Christmas Temp (Salisbury)

December of 2020, I worked as a Christmas Temp at The Entertainer, my main job roles were working on the tills selling stock and restocking the shelves. This was my first job and I learnt a variety of skills including communicating to the customers and making the shelves in the store presentable and organised. It was also my first job in a retail position, and It gave me an idea of what working in a store environment is like.

Skills

- I have brilliant organisation skills when computing and filing
- Incredible Animation designs/ideas
- I take time-management very seriously and I get things done straight away, I am reliable and don't hesitate to complete work
- I am very confident with numbers and have great mathematical skills
- I know my way around almost every software and very familiar with the computing aspect
- I am extremely good and reliable with cameras, familiar with the different mechanisms and very confident in cinematography
- Caring and compassionate
- Respectful
- Resilient and enthusiastic
- Reliable

Interests

I have many interests but my main interests are drawing and designing animations; I recently created a series of animations called 'Pheasant Tense' about a pheasant that travels through

time. You can research this and watch the short episodes on YouTube if you are interested in taking a look. I enjoy recreating popular video game artwork, expressing it in my own style. Animation is a massive factor of my life, I spend every spare moment either designing my own or watching other animated shows and movies to inspire me to improve. Chicken Run is one of my favourite movies of all time and was a massive part of my childhood which makes it more special to me.
