### About Me:

I am a dedicated filmmaker and First Class BA (Hons) Graduate in Film Production, where I specialised within the Art Department. Over the duration of my degree and since graduating I have gained a range of skills within the Art Department which I am always looking to expand on further. I am a passionate designer with a high attention to detail, and love finding creative ways to bring stories to life. I appreciate the importance of the Art Department and ensure projects I'm involved with are visually engaging with a meaningful result. I am very organised, and happily complete tasks enthusiastically and professionally. I have my own car and am open to travel.
