

# BENJAMIN LAM

## ABOUT ME

Born in Macau, a former Portuguese colony, and the neighbour of Hong Kong. My upbringing in the golden age of Hong Kong and Chinese films, along with exposure to European art and films gave me immense inspirations in visual storytelling.

For me, the core of film is emotions and we should express it in the most creative and beautiful ways. As a gaffer I aspire to assist DoPs to tell stories with a unique visual identity which strongly reinforces the emotional impact and delivery of the story.
