**Bio**

As a commercial hair and make-up artist with over 25 years of experience I have extensive skills working on all skin tones and with all hair textures, in particular creating up-do's. Working fast and effectively under pressure, and meeting strict deadlines are all part of my normal working day.

These skills and attributes enabled me to be successful in securing a place on the Screenskills TV & Film Training Programme; for hairdressers and make-up artists to transfer their skills into this industry from other sectors.

Since completing the programme I have developed skills and experience working on a set, learnt about continuity and working as part of a production crew.

**TV | Film | Commercials | Corporate Films**

## **More info: Screenskills transfer programme for Film & HETV Training for Hair & Make-up Artists**

This training programme was designed to attract hairdressers and make-up artists with extensive skills working with black hair or in make-up for POC, into a thriving UK HETV industry.

As a successful candidate, chosen from over 350 applicants, I have recently completed and passed this training course. It has enabled me to gain the skills and knowledge required to work in the hair and make-up department of an HETV drama production.

The programme is supported by Screenskills and led by Amanda Gaffey, of Make-up United Artists Ltd.

Amanda has over 25 years of experience working as a make-up designer in television and as degree qualified educator.

Make-up United Artists are happy to provide a reference for my participation in the programme and any further details you require about its content.
