

CLOAKED - SHORTFILM

\*Project started with Drawings in October 2021

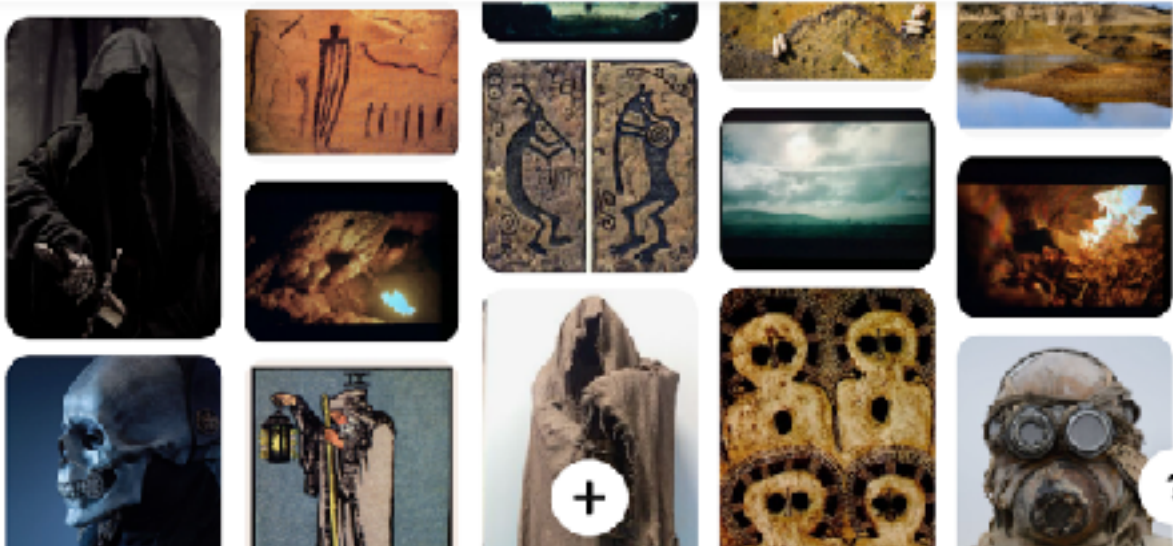

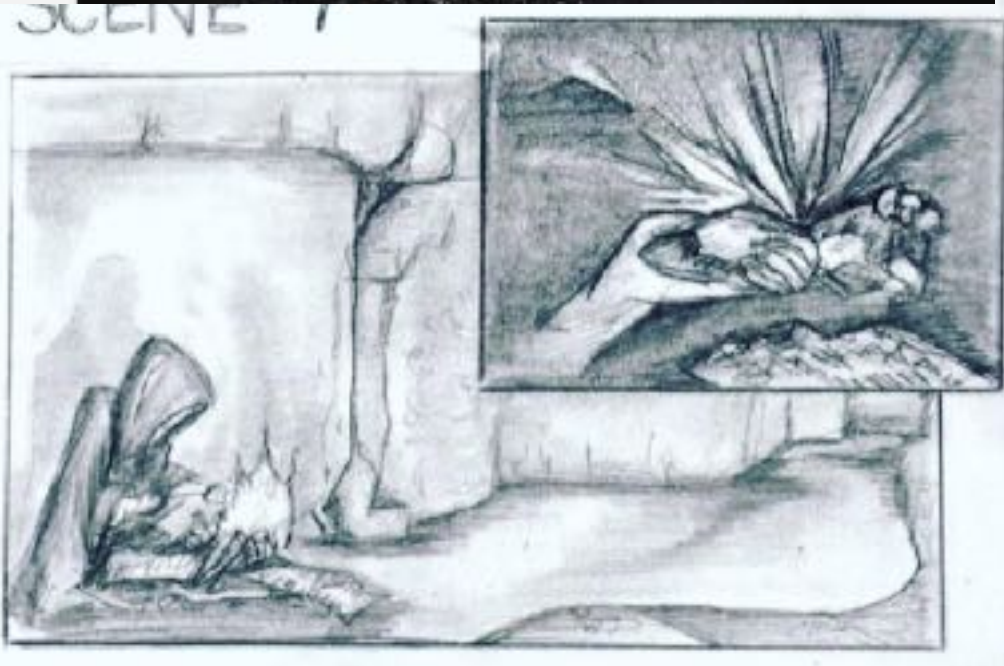

Location was finally sourced and shortfall produced over 2 days

5 min long

No dialogue!

Set 150 years in the future (storyworld)

MOODBOARD:

SCENE 8

My fascination with conception and realisation.

The drawing to the left was created 3 month before shooting, ABOVE the realised main character ...

... the power of the pen!

We eventually sourced, got license to shoot and filmed at the King Arthurs Cave Gloucester

First conceptions sketched out and I briefed involved a maker and dyed some coffee sacks to stay with the theme ...

Realisation wasn't without challenges - second Actor who could make the shoot in January 2022 - was a shorter than first cast actor ... adjustments have been made the night before ( crew stayed in a nearby hostel) and on set ...

My greatest pleasure was to delve into the story world and make it feel true, dressing including handmade props:

We later added some cave paintings (digitally) to the cave wall ..

RESEARCH and insight with this project was huge.

STAY TUNED FOR A MORE DETAILED ENTRY ON MY BLOG:
