As a recent graduate of the BA (Hons) Filmmaking: Production course at Bristol Film School, boomsatsuma, I've spent the past three years studying and working within the Film and Television Industry. I'm confident using both basic and high-end kit to create impactful moving images, which I can then post-produce—including graphics and simple VFX. I'm also proficient across social media platforms and thrive in collaborative, team-based environments. I'm extremely hard-working, reliable, and always eager to learn new skills and explore fresh ideas.
